# Time to be Thankful

The phrase “Happy Thanksgiving” can be heard throughout the community at this time of the year. We hear it from friends made years ago and from new friends we have made in the last month.

When we think about Thanksgiving, many thoughts come to mind. First, there is the image of pilgrims and the Wampanoag tribe in 1621, sitting down together for a feast and giving thanks for the harvest. There are the more modern portrayals of shopping on Black Friday, football games and eating all day. The roots of Thanksgiving, however, go back to Roman times when they celebrated the harvest and gave thanks to the goddess of agriculture, Ceres. In Exodus 23:16 it is referenced by saying “Celebrate the Feast of Harvest with the firstfruits of the crops you sow in your field. Celebrate the Feast of Ingathering at the end of the year, when you gather in your crops from the field.”

While we grew up learning that the pilgrims were the first to have Thanksgiving in America, this isn't entirely true. Marian Horvat, Ph.D., claims the first Thanksgiving in America was held in 1598 by Spanish explorers in El Paso. Also, it would be absurd to think that Native American tribes didn't celebrate an autumn festival of harvest, when so many other cultures were doing so. The pilgrims no doubt held a fest and a day of thanks, but it wasn't the first, just the most iconic in American history.

## at Kirby Pines

President Lincoln officially recognized the holiday in 1863, in an attempt to unify the North and South with a singular, cultural holiday. Much later, President Franklin D Roosevelt declared Thanksgiving is set to fall on the fourth Thursday in November. This move was largely in part to boost the economy and provide a longer holiday shopping season for Christmas.

The image of pilgrims and natives sitting down together does offer a symbol of peace. It's a beautiful moment in history we can look back on, be humbled and be thankful for what we have and for those around us. Thanksgiving, should be a holiday in which we, as individuals, focus on our past, our present, and the future. It should be a day to slow down for a few hours, join hands with family and friends, and truly reflect on how blessed many of us are.

You can still go shopping, watch a football game, and go for a second serving of food, but do take a moment to be thankful.

## ON THE PINECONE COVER

### Kirby Pines Gets A Taste Of Rock n' Roll At Sun Studio

Despite the inclement weather, there was nothing dark and dreary once we entered the famous doors at Sun Studio, the “Home of Rock & Roll”.

Sun Studio is a recording studio opened by rock pioneer Sam Phillips at 706 Union Avenue in Memphis, Tennessee, on January 3, 1950. It was originally called Memphis Recording Service, sharing the same building with the Sun Records label business.

Sun recorded blues, R&B, country, rockabilly and of course, rock and roll. Artists include; Howlin' Wolf, B.B. King, Rufus Thomas, Johnny Cash, Jerry Lee Lewis, Carl Perkins, Roy Orbison and of course, a very young Elvis Presley.

Our front cover has John and Jody Sosh ready to lay down a track of their own, while the back cover features Dan and Judy Moffett in front of the old time Wurlitzer Jukebox at the building's entrance. We thank them all for joining us on our musical pilgrimage!

# Get Ready..... Get Wet.... *and Go!*

Almost everyone, regardless of age or physical condition, can benefit from aquatic exercise – even if you don't know how to swim! Just being in the water has inherent benefits. From improvements in circulation to relieving joint pain, the rewards of aquatic exercise are numerous. Many physicians and therapists recommend aquatic therapy because it can advance individuals to a higher level of muscle fitness and mobility offering quicker advantages over land-based exercise and therapy:

**Buoyancy** provided by the water allows you to move more easily with decreased stress on muscles, joints, and bones while increasing flexibility and balance. In chest-deep water, you take 70% of your body weight off your joints. The “support” your body receives makes exercising easier and less painful, allowing you to exercise longer without increased effort or joint or muscle pain.

- Exercises performed in the water allow the heart to work more efficiently, making it a great cardiovascular workout.
- The pressure of the water on your joints and muscles comforts your body while you exercise, leaving you feeling less fatigued.
- Support provided by the water reduces the fear of falling.

**Resistance** of the water allows for higher workout intensities with less impact on your body.

**Warm water** therapy has even greater benefits. Our pool in the Oasis is usually at 90° and the spa is at 100°. Besides the comfort of the temperature, immersing in warm water raises your body temperature and relaxes your muscles benefitting individuals with disabilities and conditions such as arthritis, fibromyalgia, Parkinson's disease, and many others. Participating in a warm water exercise class provides many physical benefits:

- Improved endurance, flexibility, and range of motion
- Improved pulmonary function
- Increased circulation
- Muscle relaxation and pain relief
- Strengthened muscles
- Decreased joint and soft tissue inflammation
- Improved bone density

When asked “why do you come to water aerobics?” Here are some of our answers:

- “I can do much more in the water than on land”
- “The exercise group is a lot of fun. We laugh a lot.”
- “I come for the friendship and camaraderie.”
- “I get to exercise to my kind of music.”
- “I have made a lot of improvement in strength and balance.”
- “We work almost every muscle.”
- “I feel invigorated after the class rather than exhausted.”

Additionally, warm water exercise can have other benefits including reduced anxiety and stress, improved mood, and fun with friends.

We offer three types of Water Aerobics classes. On Mondays and Wednesdays at 8:30 is a higher impact /intensity class and on Tuesdays and Thursdays at 8:30 is a Men Only Class and at 9:30 is the Arthritis Foundation Water Aerobics Class (Women and Men) which emphasizes range of motion for every joint. All the classes help with balance and strengthening and stretching. The pool is open all day for water walking/jogging or your own routines. Never use the pool alone. Have someone nearby just in case you need help.

The Oasis has two nice changing rooms with showers and lockers. Towels are provided. I often say, “The hardest thing about water aerobics is putting on your swimsuit.” Come and join us; there's always room for one more.

We all know that exercise, proper diet and sleep are vital for our overall health, but have you ever considered your oral health and how that may be impacting your overall health? Your oral health might affect, be affected by, or contribute to various diseases and conditions, including:

- **Endocarditis**

Endocarditis is an infection of the inner lining of your heart (endocardium). Endocarditis typically occurs when bacteria or other germs from another part of your body, such as your mouth, spread through your bloodstream and attach to damaged areas in your heart.

- **Cardiovascular disease**

Some research suggests that heart disease, clogged arteries and stroke might be linked to the inflammation and infections that oral bacteria can cause.

- **Diabetes**

Diabetes reduces the body's resistance to infection — putting the gums at risk. Gum disease appears to be more frequent and severe among people who have diabetes. Research shows that people who have gum disease have a harder time controlling their blood sugar levels.

- **Osteoporosis**

Osteoporosis — which causes bones to become weak and brittle — might be linked with periodontal bone loss and tooth loss.

- **Alzheimer's disease**

Tooth loss before age 35 might be a risk factor for Alzheimer's disease.

- **Other conditions**

Other conditions that might be linked to oral health include Tooth decay and loss which may impact your ability to eat and drink which may contribute to weight loss or difficulty with swallowing.

Because of these potential links, be sure to tell your dentist if you're taking any medications or have had any changes in your overall health — especially if you've had any recent illnesses or you have a chronic condition, such as diabetes.

To protect your oral health, practice good oral hygiene every day. For example:

- Brush your teeth at least twice a day.
- Floss daily.
- Eat a healthy diet and limit between meal snacks.
- Replace your toothbrush every three to four months or sooner if bristles are frayed.
- Schedule regular dental checkups.

Remember, taking care of your oral health is an investment in your overall health.

# Joan Dodson

## A LIFETIME OF GIVING BACK

Ground-breaking career - strong professional credentials - one of Kirby Pines' go-to talented volunteers...in a nutshell, Joan Dodson, our friend and colleague.

Joan was born in Sparta, TN. She grew into adulthood with a strong desire to be a nurse – education was the key. In 1958, U.T Memphis awarded her a Bachelor of Science in Nursing (BSN) Degree; in 1969 Memphis State University awarded her a Masters Degree in Education; and in 1979, U.T. Health Sciences Center awarded her a Masters Degree in Nursing. These credentials paved her way to a health care career that was ground-breaking for the times. She worked at the Methodist Hospital School of Nursing; and as Head Nurse in Cardiology at the Memphis VA Hospital. Beginning in 1967, Joan started the Nursing Program at Memphis State University and continued as faculty; established two off-campus nursing programs, changed the status of the MSU

Nursing Program to the MSU Department of Nursing, and served as Interim Dean of the Department until a permanent Dean was appointed. She retired in 1989.

Joan is a member of the Germantown Church of Christ. She has served as President of the Altrusa Club of Memphis (Philanthropic Women's Professional Organization), and as President of the Tennessee Nurses Association, District #1. Since moving to Kirby Pines in 2011, she has volunteered as Director of The Entertainers, performed in the Rhythm Band, done stand-up comedy for the Ham-ateur Club, and plays the piano for residents in the medical areas. She also is the Health Representative on the Kirby Pines Residents' Advisory Committee, takes her turn in managing the cash register in the Blossom Shop, and collects residents' paper products in F1 corridor in support of the Kirby Pines recycle push. Before and subsequent to retirement, Joan was the care-giver to her aged parents – all told, a full schedule indeed.

Think on this - segue from the importance of professional competence and achievements to a third vital component, namely "presentation of self." The healthcare field relies on caring individuals who routinely meet the needs of strangers (no one prefers an indifferent or "cold" health care provider). Joan's public persona is warm, encouraging friend and stranger alike to approach her with ease. Concern for others has been the bedrock of her professional career, and she continues to extend herself to opportunities to make a difference in our community. Thank you, Joan for all you do and have done.

# CHAPLAIN'S CORNER

from Don Johnson, Kirby Pines Chaplain

William Wilberforce

Discouraged by his 10 years of defeat on his efforts to end slavery in the British Empire, William Wilberforce, who became an English politician in 1780 and an evangelical Christian in 1785, was distressed and disheartened. When he opened his Bible to seek uplifting and understanding, a piece of paper fell out. It was a letter from the famous Methodist minister, John Wesley. Wesley's words were challenging and powerful.

*"Unless the divine power has raised you up...I see not how you can go through your glorious enterprise in opposing that abominable practice of slavery which is the scandal of religion, of England, of human nature. Unless God has raised you up for this very thing, you will be worn out by opposition of men and devils. But if God be for you, who can be against you? Are all of them together stronger than God? Oh, be not weary in well doing. Go on in the name of God and in the power of His might."*

## NEVER LET GO!

Together with the help of others Wilberforce saw the passing of the Slave Trade Act of 1807, forbidding British ships from carrying men to be sold as slaves. After more years of efforts and failures, England finally declared the Slavery Abolition Act of 1833. It abolished slavery throughout the British Empire. It took Wilberforce 20 years to see his dreams become reality. Men of lesser commitment and conviction would have given up. After so long what's the use anyway? Wilberforce died three days after this Act was passed.

Whenever we engage in something necessary and worthwhile we will always meet opposition. It can come from many sides. Continual rejection can cause us to grow weary and even give up. We are told the status quo will never change. Everyone must accept things as they are. We are often promised "change" but the promises are never kept. Nothing good and positive occurs. The situation grows worse. Why should we bother? Does it really matter if we persevere? Will anything come of our not letting go?

This may apply to political issues, to social concerns and to personal matters.

The answer is "YES!" Tracy McGrady, a basketball player for the Houston Rockets, faced an impossible situation. His team was behind the San Antonio Spurs by eight points with only 41 seconds left in the game. The outcome of a score like this is 99% predictable.

The team this far ahead with so little time left to play will win. But Tracy's focus and goal was to win. In 33 seconds he scored 13 points and led his team to victory over San Antonio 81 to 80. Impossible...presumably. Amazing...truly!

Wesley's words to Wilberforce can challenge us today. If God has raised us up for anything, we can be assured He is greater than any problem confronting us.

Great insight is found in the Bible verse, Galatians 6:9, "And let us not grow weary in doing good, for in due season we shall reap if we do not lose heart."

Never let go!  
Always push ahead!  
Don't believe others who tell us it can't be done!

Start today!

Till next time,  
Don Johnson,  
Kirby Pines  
Chaplain
